

EXPERTCONNECT SDK FOR ANDROID RELEASE NOTES v5.x

Release notes and change log for the EXPERTConnect SDK for Android.

v5.2.5

`EXPERTconnect.framework`

Changes

- Removed Location Manager access from the SDK.
- The SDK will not include geolocation in breadcrumbs automatically.

v5.2.4

`EXPERTconnect.framework`

Additions

- Previously the server returned a “No agents available” message in English only. Now this message will be displayed in English, Spanish or French, depending on the language selection on the device.
